EDUCATION

Texas Tech University, Lubbock, Texas

(expected) Graduation: *May 2029*

Bachelor of Science in Industrial Engineering

GPA: 3.428

Relevant Coursework: Introduction to Engineering Design, Computational Thinking with Data Science, Engineering Seminar, Calculus I & II, Engineering Ethics and Impact on society, Calculus-Based Physics I & II.

Achievements: President's List (Spring)

Certifications: Google AI Professional

WORK EXPERIENCE

International Energy Services Limited (IESL), Victoria Island, Lagos State

June - July 2026

Industrial Engineering Intern

- Completed **10-Week** internship program with IESL designed to provide practical exposure, technical learning opportunities, and professional experience within their Engineering operations.
- Shadowed senior engineers in various departments: Process, Mechanical and Piping, to map workflow processes and identify operational bottlenecks within engineering operations.
- Participated in safety audits and facility walkthroughs to ensure compliance with engineering standards and process optimization goals.

HP Tech Ventures, Externship Program (Remote)

June 2026 - Current

- Conducted due diligence on potential investment opportunities, analyzing company data such as fundraising history, team composition, press coverage, and technology.
- Leveraged AI tools for market research, creating reports on market size, industry trends, and growth potential to guide strategic investment decisions.
- Produced synthesis reports on key areas, including market opportunity, technology, competitive landscape, team assessment, and risk analysis, culminating in a professional investment memo.

Staybridge Suites Hotel, Lubbock, Texas

November 2025 - Current

Front Desk

- Monitor **35** Room Reservations with 100% in customer identity verification.
- Deliver high-quality customer service by resolving guest inquiries, managing phone systems, and coordinating guest requests.
- Manage marketplace operations, serving as a cashier and accurately auditing daily cash totals and financial transactions

PROJECT EXPERIENCE

The Tiebreaker (AI-Driven Custom Web Application) | *Personal Portfolio Project (Github)*

- Conceptualized and deployed "The Tiebreaker," a functional decision-intelligence web application built with Claude utilizing generative AI models and iterative "vibe coding" workflows.
- **Integrated core analytical methodologies** including a "SWOT" analysis structures, side-by-side comparison matrices, and multi-variable pros/cons lists to translate qualitative options into data-driven decision outcomes

INVOLVEMENT

National Society for Black Engineers (NSBE)

September 2025 - Current

Active Member/Volunteer

- Attend General Meetings and **network** with industry professionals from companies like **Walmart** and **HALFF** to gain insight into current engineering projects and career development.
- Volunteered for **MLK day of Service**, in packaging food, and writing words of encouragement for the Elderly in hospitals, along with Concessions for the **Texas Tech Basketball** games in preparing food and snacks for Concession Stands

Students of East Africa (SEA)

November 2025 - Current

Fundraising Chair

- Coordinate with the **executive board** to plan and execute large-scale community-building events celebrating East African culture
- **Lead** fundraising strategies, including the "Love at SEA" event, which successfully raised **\$500** to support community initiatives.

TECHNICAL SKILLS

Engineering & Design: AutoCAD, Aspen HYSYS

Data & Core Tools: Python, MS Excel, MS Spreadsheets, Google Sheets

AI & Automation: Prompt Engineering, Vibe Coding, Google AI Studio, NotebookLM
